

Name: _____

Date: _____

Humans

Start by cutting out and the heart, lungs, brain and stomach from your other sheet. Then glue them in place on the person below. Next, label the parts of the human body.

What is the purpose of these body parts?

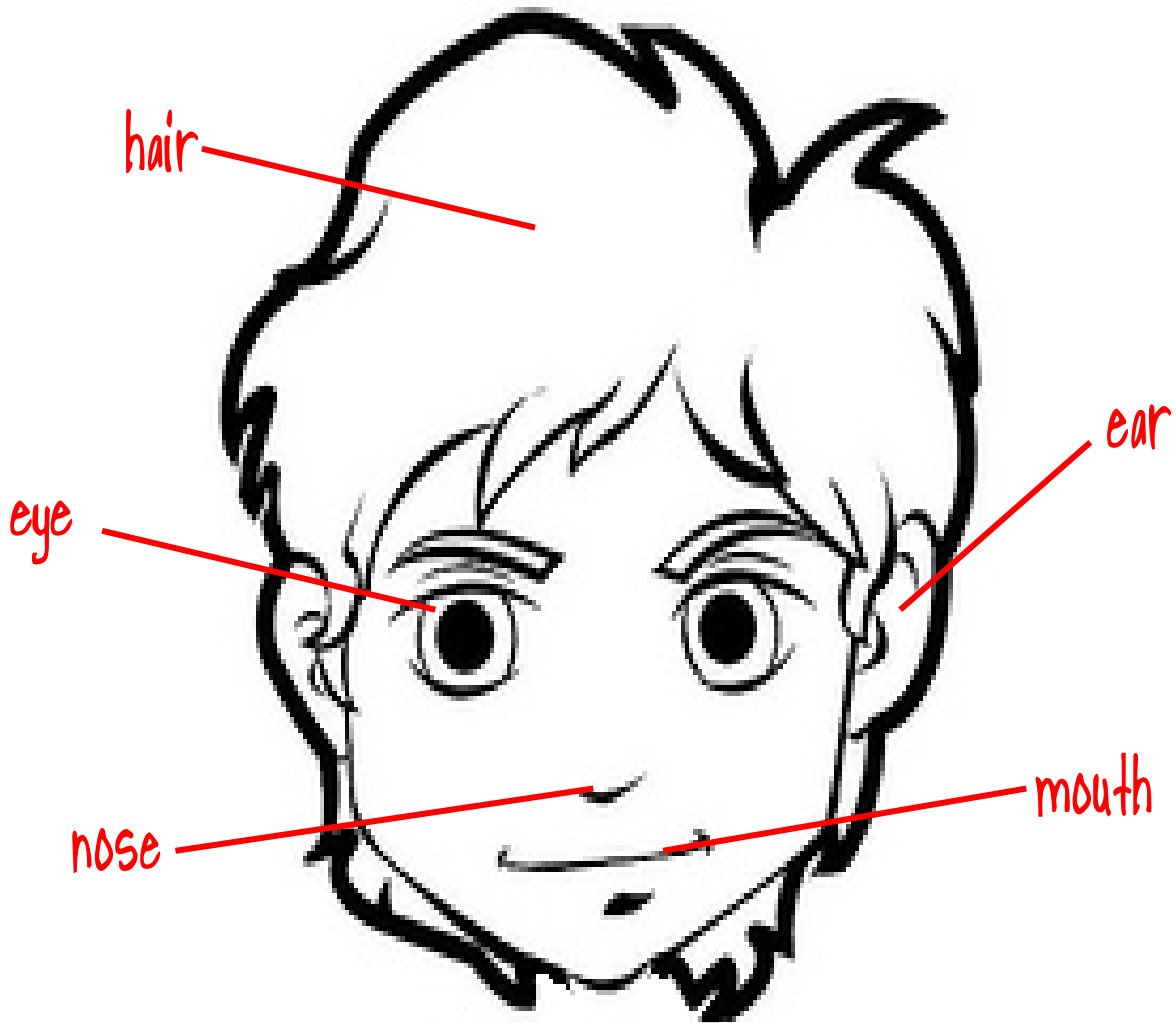

Heart To pump blood around our body

Brain To control our body, to think

Lungs To breath

Stomach To digest food

Turn the oval below into a human face by drawing in the eyes, nose, mouth, ears and hair. Label each of these body parts.

Why do you think humans have hair?

Hair helps keep our head warm, and it also protects the top of our head.

What other body parts do you think are important?

Teeth

Fingers

Toes

knees

Elbows

...etc
