

Missing

Name:

Ear

Last Known Location:

Ear was last seen on the side of an animal's head.

Description:

- Ear can be many different shapes and sizes.
- Ear has a hole in his middle.
- Ear is covered with skin, and sometimes has fur on him.

Other Information:

- Ear is used for hearing. He can hear quiet whispers and loud screams.
- Ear can produce wax. The wax will be inside him. He uses it to protect himself.

If you see Ear, please return him to the side of the head so he can be with his twin.
