shiny		dull
sweet		dark

Match each of the descriptive words below to the senses that you would use.

bitter				clear
bumpy				clicks
colourful				cold
fragrant				fuzzy
gritty				spicy
squeaky				square
wavy				stinky

Below you will find a description of two objects that can be found in the classroom. Read the description and draw the object in the box.

This object is round and made of glass and plastic. It makes a quiet ticking sound every time a part moves. If you touched it, it would feel hard and smooth.

This object is large and made of wood. It creaks if it is moved back and forth. It is smooth and has many pieces that are attached. Most of the object is hard, except for a small flat soft part.
