

Name: \_\_\_\_\_

Date: \_\_\_\_\_

## Where Do Materials Come From?

\_\_\_\_\_ can be natural or man-made. A

\_\_\_\_\_ object is something that is found in

\_\_\_\_\_. It would exist even without people. A man-

made object is something that is made by \_\_\_\_\_. It

would not exist without people.

\_\_\_\_\_ can also be natural or man-made. Natural

materials are things people use from nature to make things.

Small walls can be made from stones, which are natural.

\_\_\_\_\_ materials are things people use that have

been \_\_\_\_\_ from the way they are in nature. Walls

can be made out of bricks. Bricks are not natural, but they are

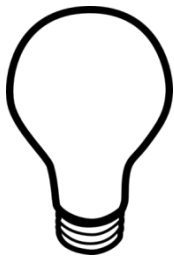

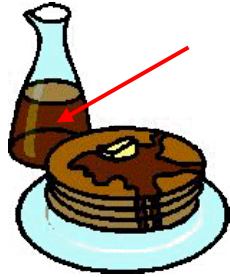

made from mud and clay, which are natural. All materials that

are man-made are made from \_\_\_\_\_ that are

natural.

natural	Objects	changed	people
Materials	Man-made	nature	things

Match the objects to the material, and then match the material to where it comes from.
