AIR AND WATER

Pretend that you are on a space mission, you have just landed on a new planet and you have made contact with aliens!!! Amazingly they can speak English, but when you ask them about air and water they do not understand. In the spaces below describe air and water to try to help the aliens understand what they are.

AIR

Description	Use

Name: _____

Date: _____

WATER

Description	Use

As it turns out, the aliens do not have air or water on their planet. What would you tell them are the most important reasons why we need them on our planet?
