# All about Birds

Birds have \_\_\_\_\_ and most birds can fly. The \_\_\_\_\_ however, does not fly. Birds are the only animals with \_\_\_\_\_. They are \_\_\_\_\_-blooded animals and some live in water and some live on the \_\_\_\_\_. Birds will eat insects, \_\_\_\_\_, meat, \_\_\_\_\_ and sap from \_\_\_\_\_. Birds have \_\_\_\_\_ to help them find and eat food. Thick, strong bills are used to \_\_\_\_\_ seeds and sharp bills are used for making \_\_\_\_\_. Spear-shaped bills are used for \_\_\_\_\_ fish. Birds make \_\_\_\_\_ and the young are \_\_\_\_\_ from eggs. Some birds can't find enough food in the fall and winter months, so they \_\_\_\_\_ south.
