

# Grade 7 Science

## Unit 2: Ecosystems

## Aboriginal Perspectives

Today's entire lesson is to be done independently online. Please go to the Ecosystems webpage and locate the link to "Aboriginal Perspectives." Follow the instructions found there.

Do not print the worksheet, I have photocopied them for you, they are at the front of the room.

When you are done, please turn your focus to doing other work.

- » Overdue science work
- » Other science work
- » Work for other classes
- » Silent reading

# Common Issues with Lab Reports

- table of contents - list first page only
- data table incomplete or missing
- need your own images for observation
- observations are short
- observations only use sense of sight
- discussion is brief, lacking detail, lacking explanation
- not all discussion answered
- need multiple personal discussion topics
- additions need to show understanding to count as additional information
- "abiotic organisms"
- information not in the proper section (organization issues)
- not all images included (observations and equipment)
- paragraph flow
- font alignment is random
- font size, colour, type
