

# Grade 7 Science

## Unit 2: Ecosystems

### Ecosystems Unit Test

- Please sit at the end of one of the desks.
- Place all of your belongings, not needed for the test, on the side counters, not in the desks.
- You are expected to stay in your seat, raising your hand if you need me.
- You are required to stay silent for the entire period, speaking only to me, and only in a whisper.
- When you receive your test, put your name on it before you start.
- While writing the test, if you do not know a question, skip it and move on. Draw a star beside the question so that you remember to come back to it.
- You will have three periods, so you should get through at least one page, front and back, per day.
- If you finish your test, check the "Test Complete" box at the top of the first page.
- When complete for the day, place the test in one of two piles - "Done" or "Not Done," then return silently to your seat and work on something else.
- If you feel you will not finish within the three period allotment, you need to arrange to come in at break. Do not wait until the last day to figure this out.
