

Grade 7 Science

Unit 1: Introduction and Safety

Someone please handout a copy of the "Science Lab Safety Contract."

Read through the contract, top to bottom, and sign it in pen when you are done. Leave the contract on your desk.

Please also print your name on the paper.

Today you will be writing your Science Safety Test. When you have completed the instructions above...

- separate your desks
- have your materials on your desk (pencil and eraser)
- sit quietly
- wait for further instructions

Science Lab Safety Contract

To help keep myself and others safe in the Science room, I agree to:

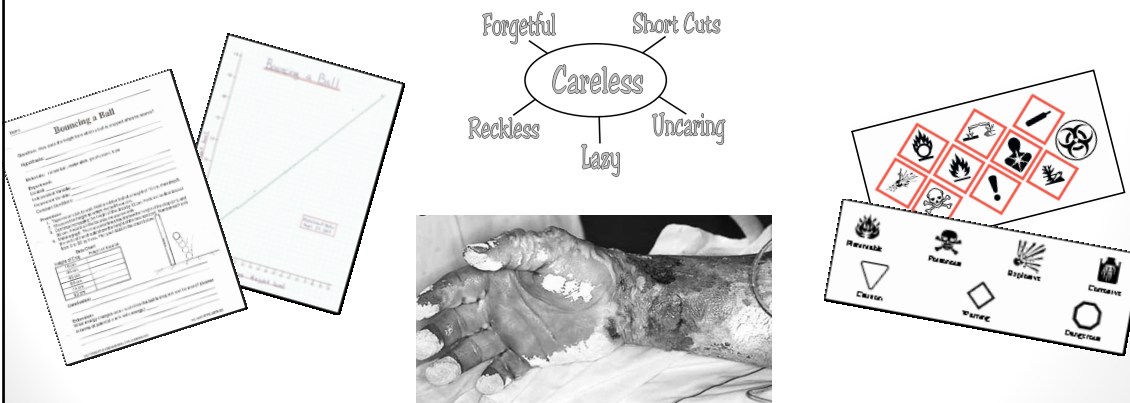

1. Pay careful attention to instructions and take my work seriously. This includes coming to class prepared.
2. Keep my work area clean and organized.
3. Tie back long hair and remove loose clothing or jewelry.
4. Never eat, drink, or use any equipment unless I am instructed otherwise.
5. Never touch, smell, or taste lab materials unless instructed to do so.
6. Report all breakage, spills, injuries, or accidents to my teacher immediately, no matter how minor.
7. Use all tools, especially sharp tools, with proper care.
8. Dispose of any materials from an investigation as instructed by my teacher.
9. Wash my hands carefully after completing a lab investigation.
10. Always get the safety of my classmates, teacher and myself first. If in doubt I will ask my teacher. There is NO SUCH THING as a stupid question.

I have read these rules and agree to follow them.

Student's signature _____

Date _____

That is the end of our introduction unit, I have no new work for you today. Please use the remaining class time to work on anything you have not yet completed, or you may work on something for another class. **Do so quietly.**

Your binder is due next class. Recall that the rubric below is what is used to determine your grade. Note that the last thing for your binder is your safety test. These will be graded, and handed back at the start of next class. You may submit your binder once you have received the test.
