

Grade 7 Science

Unit 3: Pure Substances and Mixtures

Mix It Up

Today you will do _____ rotations.

We have about _____ minutes for class, so
you will have around _____ minutes per station.

Remember that it is your responsibility to clean up at the end of each rotation. All equipment should be properly organized for the next group. If you are not the last rotation, you will leave the equipment on the desk in an organized fashion, and not return it to the counter.

At the end of the last rotation, all equipment is to be returned to the assigned spot on the counter. It needs to be returned exactly as it was found.

You will be doing a lab report. Remember to make detailed observations and notes!

... also, why not start your lab report now?
