

GRADE 8 SCIENCE

UNIT 5: HYDRAULIC SYSTEM DESIGN

Hydraulic System Design

We are now finishing up week four of this project. At this point you should have a significant portion of your build complete. Next week you will begin thinking about your **presentation**. We will review this component of the project next period.

By now, you should have:

- Robot's task decided
- Initial design concept drawings complete and approved
- Tool training
- Scroll saw training
- 3 weeks entered in journal (1 more today)
- At least two-thirds of your build complete

Hydraulic System Design

Today is your _____ period for week _____ of your hydraulic system design project.

A this point, you should be working on:

When the timer reaches zero, please clean up any tools or materials you have out. Those who are not building may continue to work.
