

GRADE 8 SCIENCE

UNIT 5: HYDRAULIC SYSTEM DESIGN

Hydraulic System Design

We are now finishing up week five of this project. At this point your build should be nearly complete. Next week you will begin working on your **presentation**. We will review this component of the project next period.

By now, you should have:

- Robot's task decided
- Initial design concept drawings complete and approved
- Tool training
- Scroll saw training
- 4 weeks entered in journal (1 more today)
- A functional system, just in need of tweaking
- A plan for your presentation

Hydraulic System Design

Today is your _____ period for week _____ of your hydraulic system design project.

A this point, you should be working on:

When the timer reaches zero, please clean up any tools or materials you have out. Those who are not building may continue to work.
